Dear Hiring Team,

Having recently sold several companies I built over 15 years, I have spent the last year building advanced credentials and expertise in Integrative Nutrition and Health/Wellness Coaching. I am seeking to bring my expertise to a company that aligns with my Public Health background and the important work of Epidemiology, research, nutrition and wellness.

As an entrepreneur who led 47 employees, I developed comprehensive skills in leadership, strategy, partnership and customer service, while successfully managing the demands of raising two children to adulthood.

My background uniquely combines entrepreneurship and business and research with wellness and healthcare experience. In my prior decade-long career in clinical women's health, I directed a regional health center with 36 medical staff members and provided extensive health education and advocacy. My graduate work included research on Type II Diabetes, nutrition, and maternal/child health, resulting in published findings.

I have deep respect for the emergent field of integrative nutrition and functional wellness. I am based in Colorado and available for a Zoom conversation to discuss how my experience might benefit your goals. I look forward to the possibility of contributing to your mission of improving health outcomes worldwide.

Best regards,
